| Activity         | Area       | Bio-Waste Treatment | Non-Bio-Waste Disposal | Vehicle | Collection Frequency (Days/Week) | Total Days (Month) | Unit Cost (₹) | Total Cost (₹)/year |
|------------------|------------|---------------------|------------------------|---------|----------------------------------|--------------------|---------------|---------------------|
| Waste Collection | Karian I   | Composting Pits     | Recycling at Center    | Yes     | 3                                | 12                 | 300           | 3,600 x 12          |
| Waste Collection | Karian II  | Composting Pits     | Recycling at Center    | Yes     | 3                                | 12                 | 300           | 3,600 x 12          |
| Waste Collection | Karian III | Composting Pits     | Recycling at Center    | Yes     | 3                                | 12                 | 300           | 3,600 x 12          |
| Waste Collection | Jukhradi   | Composting Pits     | Recycling at Center    | Yes     | 3                                | 12                 | 300           | 3,600 x 12          |

|                                 |                   |   |   |     |                   |                    |               |                  |
|---------------------------------|-------------------|---|---|-----|-------------------|--------------------|---------------|------------------|
| Transport to Segregation Center | Kariann to Maredi | - | - | Yes | -                 | 2 times/month      | 700           | 1400x12          |
| Safety Equipment for Workers    | All Areas         | - | - | -   | 3 days x 4 labors | 12 days x 4 labors | 120 per labor | 120x4 = 480 x 12 |
| Vermicompost Pit Construction   | Kariann           | - | - | -   | -                 | -                  | Fixed Cost    | 5,000            |
| Total                           |                   |   |   |     |                   |                    |               | 2,00,360         |

#### Section 4: Tax Collection Plan

| Category   | Rate per Unit (₹) per Month | Rate per Year (₹) | Total Units | Total Collection (₹)/month | Total Collection/year |
|------------|-----------------------------|-------------------|-------------|----------------------------|-----------------------|
| Households | 50                          | 600               | 550         | 27,500                     | 3,30,00               |
| Shops      | 100                         | 1,200             | 50          | 5,000                      | 60,000                |
| Total      | 150                         | 1800              | 600         | 32,500                     | 3,90,000              |

#### Additional Recommendations

- Strict enforcement of sanitation tax collection to ensure sustainability.
- Awareness campaigns for household-level waste segregation.
- Monitoring and evaluation system to track waste collection efficiency.
- Provision for sanitary waste disposal as there is no dedicated space for it.
